LAW PROPOSED BY INITIATIVE PETITION

Do you approve of a law summarized below, on which no vote was taken by the Senate or the House of Representatives before May 3, 2000?

SUMMARY

This proposed law would create a state Drug Treatment Trust Fund, to be used, subject to appropriation by the state Legislature, solely for the treatment of drug-dependent persons. The Fund would include fines paid under the state's criminal drug laws; money forfeited because of its use in connection with drug crimes; and the proceeds from selling property forfeited because of its use in connection with drug crimes.

The Fund would be administered by the state's Director of Drug Rehabilitation. Money in the Fund would be spent to increase, rather than replace, existing government funding for drug treatment programs. Those programs would be expanded to apply to persons who are at risk of becoming drug-dependent and to include drug abuse prevention through education.

The proposed law would expand eligibility for the program under which a person charged with a drug crime may request a court finding that he is drug-dependent and would benefit from court-monitored treatment. If the court so finds, and the person then successfully completes a treatment program, the criminal charges are dismissed. The proposed law would allow requests to enter this program by persons who are at risk of becoming drug dependent and by persons charged with a first or second offense of manufacturing, distributing, or dispensing a controlled substance, or possessing

a controlled substance with the intent to do any of those things, or trafficking 14 to 28 grams of cocaine.

The proposed law would change the state law governing forfeiture of money and property used in connection with drug crimes. Land and buildings could not be forfeited if used in a manner that was merely incidental to a drug crime. The state would have to prove by clear and convincing evidence that money or property was subject to forfeiture, and the property owner could then try to prove by a preponderance of the evidence that the money or property was legally exempt from forfeiture. All forfeited money, instead of being divided between the prosecuting agency and responsible police department and used for law enforcement purposes, would be put in the Fund. All forfeited property, instead of being so divided and used, would be sold and the proceeds put in the Fund.

Records of all sales and local forfeiture activities would have to be kept and made public unless harm to law enforcement efforts would result. The state Inspector General could audit and investigate these activities. Any official who concealed or diverted any forfeited money or property could be punished by a fine of up to \$1000, imprisonment for up to one year, or both.

The proposed law states that if any of its parts were declared invalid, the rest of the law would remain in effect.

A YES VOTE would change state laws governing drug-dependency treatment and fines paid and money and property forfeited in connection with drug crimes.

A NO VOTE would make no change in the laws governing drug-dependency treatment and fines and forfeitures based on drug crimes.

QUESTION 9
THIS QUESTION IS NOT BINDING

Shall the state representative from this district be instructed to vote for legislation to create a single-payer plan for universal health care in Massachusetts that provides all residents with comprehensive health care coverage—including the freedom to choose doctors and other health care professionals, facilities, and services—and eliminates the role of private insurance companies in health care by creating a publicly administered trust fund (similar to Social Security) that would receive funds presently going to those companies?

Shall the proposed Berkshire County Charter, summarized below, creating Berkshire Regional Council of Governments as a form of county government be adopted?

SUMMARY OF PROPOSED CHARTER FOR THE BERKSHIRE COUNCIL OF GOVERNMENTS

The proposed charter would create a Berkshire Council of Governments for the purposes of mutual cooperation and benefit among the member cities and towns of the Council. Voting membership on the Council would be limited to cities and towns in Berkshire County whose residents vote, by majority of those voting at an election, to join the Council. The proposed charter would not be interpreted to infringe upon the powers or duties of cities and towns, including their power to legislate for the general health, safety, and welfare of their residents.

The Council would initially have no regulatory power. The Council would have the following powers and duties: all powers and duties that state law confers on regional councils of governments; including the power to decide to provide regional services and regulation; the power to establish the Council's internal organization and procedures; including compensation and personnel procedures for Council officers and employees; the power to construct, acquire, operate, and maintain public improvements, capital projects, real and personal property, and enterprises, for public purposes; the power to enter contracts; sue and be sued; and sell, lease, or dispose of property; the power to set and collect membership fees and assessments; incur debt in anticipation of revenue; accept grants; and spend funds for Council purposes; and the powers of the former county government regarding public employee health insurance.

The Council could exercise its powers and duties in cooperation with other government entities, if consistent with state law, and could agree with any government or other entity to provide, jointly or for the other, any service or activity that the other entity may legally perform.

A city or town joining the Council would have to remain a member for at least 3 full fiscal years. Withdrawal would require a majority vote at an election in the city or town, taken at least 1 year before the fiscal year for which withdrawal would take effect. A withdrawing city or town would remain liable for its share of the Council's financial obligations and would have no right to payment for any share of the Council's assets.

The legislative body of the Council would be a Board of Councilors. Each member city or town's executive authority would choose a Councilor, who would have 1 vote plus a weighted vote based on the city or town's population. The Councilors would control Council property, litigation, personnel

policies, internal procedures, and collective bargaining agreements. Records of the Councilors' proceedings would be made public.

The executive body of the Council would be a 7-member Steering Committee, with 6 of the members elected to 1-year terms, by and from among the Councilors, with each Councilor casting an equal, non-weighted vote. 2 members would be elected from each of 3 Berkshire geographic regions, with roughly equal populations; as set by the Council. If Pittsfield joins the Council, its Councilor would be the 7th member of the Steering Committee; otherwise, the 6 other members would elect a 7th, at-large member for a 1-year term. No city or town could have more than 1 member on the Steering Committee, and members would have single, non-weighted votes. Councilors and Steering Committee members would not be paid. The Councilors would annually elect, from among the Steering Committee, a Council Chair and Vice-Chair.

The Steering Committee would oversee the carrying out of policies approved by the Council; would appoint and annually set the salary and review the performance of a full-time administrator; and would have confirmation power over the administrator's appointments to certain Council offices. The administrator would be directly responsible to the Councilors for the administration of all Council affairs assigned to him or her.

Every year the Council would adopt, by April 1, a budget for the fiscal year starting July 1. The budget would be based on a proposal made by the administrator, sent to officials of member cities and towns, discussed at a public hearing, and reviewed by the Steering Committee before adoption by the Council.

Each member city or town would pay the Council an annual \$1000 membership fee, and the Council could impose a maximum annual assessment of \$1 per resident of each member city or town. The Council could increase or reduce this assessment based on the Council's budget, subject to certain limits set forth in the law known as Proposition 2 1/2, except that the Council could adjust the amount raised by the assessment to account for changes in Council membership or in the population of member cities and towns. The Council could also raise revenue by charging user fees or fees for services, and by other methods if allowed by law or approved by the voters of member cities and towns.

Any proposed amendment to the charter would first require the approval of 2/3 of the weighted votes of the Councilors, or could be offered by a petition signed by enough registered voters to equal 5% of the registered voters in member cities and towns. In either case, the proposed amendment would then be submitted to the voters of member cities and towns for approval, by majority vote, at a regular state election.

The proposed charter would take effect on January 1, 2001, if approved in at least 22 Berkshire County cities or towns by a majority of those voting in that city or town, or if the population of the approving cities and towns equals 2/3 of the population of Berkshire County.
